You are Invited to Attend

Strategic Overview of Disaster Management for Water & Wastewater-MGT342

October 9, 2013

The *Strategic Overview of Disaster Management for Water and Wastewater* brings together those personnel from within a jurisdiction who would be required to manage or react to any natural or man-made incident that could potentially affect a water or wastewater utility. This course introduces the various natural and man-made hazards to which water and wastewater systems may be vulnerable and the potential effects the hazards may induce. Participants are guided through portions of the Environmental Protection Agency’s Response Protocol Toolbox to identify steps in the response and recovery

Topics to be Covered

- Threats to Water and Wastewater Systems
- Preparing for disasters affecting Water and Wastewater Utilities
- Responding to disasters affecting Water

You should attend if you are involved with:

- Directors/Departments Heads
- City/County Elected Officials, City Managers
- City/County Emergency Managers
- Senior Emergency Response Personnel
- Water and Wastewater Utility Board Members
- Tribal Council Members
- Senior Regulatory Officials.
